Date : 06 / 03 / 2023

To,
The BOS-Electrical Engineering Dept.
Shivaji University Kolhapur.

From,
HOD-Electrical Engineering Dept.
Dr.D.Y.Patil pratishthan's.
College Of Engineering.

Subject: CBCS Syllabus of Electrical Engineering Regd:-

Respected sir,

The Electrical Engineering Department established in the year of (2018-19) and CBCS has been introduced In the same year. From the Dr.D.Y.Patil Pratishthan's college of Engineering this is the first batch is going out of the Electrical Engineering department (2018-2023). We have collected the feedback from the faculty members, students and discussion made with Department Advisory Board in concern with review of the syllabus and curriculum point of view. It has been observed that quality of content is appreciated by the students and stakeholders at B.Tech level. The coverage and delivery of the content of the syllabus has really mattered.

Advanced topics developed ability to critically analyze the problem, formulate the innovative frame work to find the solution for it. The students as well as faculty has liked the appropriateness of the program out comes and learning Outcomes of the courses being delivered. The curriculum that is designed is relevant for employability also.

Doing the project and writing the project reports added to their ability to communicate effectively with peers. Moreover; the co-curricular and extracurricular actives are conducted to the students(Like industry visit, participation in NSS) e.t.c, are given to students which greatly impact their managing skills and contribute towards their present and professional development. Such activities helps to keep engaged in lifelong learning as a means of enhancing knowledge and skills for continuous professional advancement.

Thank You,

Received, your suggestion will
be put up & discussed in the next BOS. Thanks
Regards. Dr. D. S. Mose
10/3/23 Chairman BOS, SD.

Subject: CBCS Syllabus of Civil Engineering Dept Regd:-

Respected sir,

Civil Engineering department, We have collected the feedback from the faculty members, students and various stake holders ,Department Advisory Board in concern with review of the syllabus and curriculum point of view. It has been observed that quality of content is appreciated by the students and stakeholders at B.Tech level. The coverage and delivery of the content of the syllabus has really mattered.

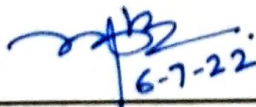

Advanced topics developed ability to critically analyze the problem, formulate the innovative frame work to find the solution for it. The students as well as faculty has liked the appropriateness of the program out comes and learning Outcomes of the courses being delivered. The curriculum that is designed is relevant for employability also. Students suggested to include value added software related courses in syllabus which will be helpful for them in future for example Auto cad, MS Project, Primavera, Etabs, SAP, Auto Cad is already introduced in Second year level but if we included more courses then it will be beneficial to students to gain practical knowledge and they will understand what industry required from us. We have conducted many workshops regarding this, by inviting the industry experts. Above mentioned courses made compulsory in syllabus.

Doing the project and writing the project reports added to their ability to communicate effectively with peers. Greatly impact their managing skills and contribute towards their present and professional development..

Recd. Thank You

your suggestions will put up & discuss in next BOS meeting
Thanks for your concern.

Regards,

6-7-22
