Kolhapur Incubation Center

Kolhapur Incubation Center - A flagship project by Mr. Satej D. Patil (MLC - Maharashtra). KIC is self sustained, privately driven organization launched exclusively for the people of Kolhapur at local level.

KIC is a hub for innovative startups and entrepreneurs. We support start-ups with incubation facilities such as state of the art physical infrastructure along with the availability of sector experts for mentoring. In addition, support in business planning, support in access to seed capital, industry partnerships, training and other relevant components required for developing an innovative start-up.

As success speaks, today's youth is motivated to apply their knowledge of business in practice. In order to reap the benefits of young minds, government and various private organizations are extending their helping hand in the formation of incubation center.

Need of Incubation Center:

To strengthen and motivate students /public through a supportive environment that helps them to establish their business ideas and develop their concepts into market ready products.

VISION

To nurture, support and grow entrepreneurial spirit of the people of Kolhapur

MISSION

To promote a culture of innovation and entrepreneurship and help start-ups in Kolhapur in their pursuit to become scalable and sustainable enterprise

Objectives:

- To provide platform to the needy of different disciplines to work as a team and share their innovative ideas, views and knowledge.
- To provide opportunities for experimentation and exploration of newer solutions and methods.
- To share updated knowledge of technological transformation in every discipline.
- To test and implement innovative ideas for product development as per the need of market.
- To educate the students/public to nurture their ideas and projects into feasible business.

The objective of incubation center is to create physical infrastructure and support system necessary for business incubation activities, facilitate networking with professional resources which include experts, consultants and advisers for the incubate companies promote and facilitate knowledge creation and innovations.

Methodology:

- Assess the market conditions and entrepreneurs requirement
- Identify team and service providers
- Arrange for resources
- Establish Industry Linkage
- Draw out calendars of activities
- Attract, select, retain and manage startups
- Nurture entrepreneurship in those students who have a passion for knowledge generation and mentoring

Thrust Areas of the Incubation Center:

- Edutech
- Environment
- Agritech
- Art & Design
- Urbanization

For smooth conduction of the incubation center related activities, various committees like core committee, Mentor committee, Steering Committee and student committee are formed. The main theme of this centre is to work for the sectors like Digital India, Make in India, smart city, green technology etc as it is the need of the hour.
