M= Male and F=Female

From the above data, we can draw the following inferences regarding Gender Equity.

- 1) Overall Faculty Count: The Total Faculty count (Male + Female) has increased over the years, indicating potential growth in the institution's faculty size.
- 2) Female Faculty Count: The Number of female faculty members has remained relatively stable or slightly increased.
- 3) Gender Ratio: While the male faculty member count has remained relatively consistent, there has been effort to improve gender equity by increasing the number of female faculty numbers. This can be seen in the gradual increase in female faculty members count from 2018-19 (11) to 2022-23 (28).

## Summary of ICC and Anti-ragging Committee

The institution's commitment to gender equity is reflected in the establishment of the Internal Compliance Committee, Anti-Ragging Committee and the Governance of the institution. These committees work diligently to ensure a safe and inclusive environment for all students and staff members. Since the establishment of the institution in 2014 to till date, there have been no reported issues or complaints addressed by these committees, which is a testament to the institution's proactive approach in promoting a respectful and supportive culture.

However, it is worth mentioning that in the year 2019, a complaint was brought forward by a student named Ms. Poonam Patil against Mr. Tushar Patil. Efforts were made for reconciliation, but since it was beyond counseling, the institution had no option but to file a non-cognizable offense against the student. After this incident, many girls expressed their gratitude to the management for taking swift and decisive action to ensure their safety and well-being. This incident further underscores the institution's unwavering commitment to maintaining a secure and respectful environment for all its members.
