

## Qualitative Matrices

**1.1.1 The institution ensures effective curriculum Planning and delivery through a well planned and documented process including academic calendar and conduct of continuous internal Assessment.**

### Response

Dr. D.Y. Patil Prathistan's College of Engineering college is affiliated to Shivaji University Kolhapur (SUK) which is a State Public University which is NAAC accredited with A++ grade.

The Institution places great importance on ensuring effective curriculum planning and delivery through a well-planned and documented process. This process begins with the Internal Quality Assurance Cell (IQAC) meeting at the start of every academic semester. This meeting serves as a platform to discuss and strategize various curricular, co-curricular, and extra-curricular activities.

Following the IQAC meeting, each department conducts its own Department Advisory Board (DAB) meeting. During these meetings, gaps in PO attainment, Industry requirements, academic planning and other activities are discussed in detail so that inputs from other academicians', Industry experts, faculty, students are taken. This allows each department to plan its value added courses, academics in a way to meet the vision of department which in turn is synchronized with institution vision.

To ensure a structured timeline, the Institute Academic Calendar is finalized by the Dean of Academics in HoDs meeting which will be in alignment with the SUK calendar and includes all institution level activities. This calendar incorporates curricular and co-curricular activities, providing a smooth conduction of the academic semester. Subsequently based on institute academic calendar each department prepares its own Departmental Academic Calendar to include departmental activities.

To distribute the teaching load effectively, subject choices from faculty members are collected during the Academic load distribution process. Teaching loads are assigned based on the choices given by the faculty, taking into consideration their area of specialization (competency mapping) , experience, and subject preferences. This ensures that faculty members are assigned courses that best utilize their expertise.

A Master Time table is prepared by each department, incorporating all the theory and practical schedules. This allows for efficient planning and coordination of classes, ensuring that students receive a well-structured and organized learning experience.

Continuous Internal Examination (C.I.E.) is conducted to assess student performance. As per SUK regulations we conduct two unit tests during the semester for all theory and practicals. One semester end examination is conducted by SUK who provide the question paper (online) and undertake the assessment thereafter. The quality of CIE question papers are assessed by the HoD and academic coordinator, ensuring that they align with the desired learning outcomes. Additionally, Course Exit Surveys are collected from students upon completion of each course, providing valuable insights into the effectiveness of the curriculum and teaching methods.

### **1.1.1 Number of student's year wise during the last five years.**

<b>Year</b>	<b>Name</b>	<b>Student Enrolment No</b>	<b>Date of enrolment</b>
2018-19	<a href="#">View</a>	90	<a href="#">View</a>
2019-20	<a href="#">View</a>	76	<a href="#">View</a>
2020-21	<a href="#">View</a>	161	<a href="#">View</a>
2021-22	<a href="#">View</a>	258	<a href="#">View</a>
2022-23	<a href="#">View</a>	269	<a href="#">View</a>
