Department of Computer Science and Engineering

Activity under MoU

Anvistar ITS Pvt. Ltd., Pune, Maharashtra

1. Introduction

As a part of the B.Tech curriculum, an industrial internship was undertaken at **Anvistar ITS Pvt. Ltd., Pune, Maharashtra**. The objective of this internship was to gain practical exposure to the corporate working environment and to understand how theoretical knowledge is applied in real-world projects. The internship helped in developing technical skills, professional ethics, and teamwork abilities essential for an engineering career.

2. About the Organization

Anvistar ITS Pvt. Ltd. is a technology-oriented company based in Pune, Maharashtra, providing services in the field of **Information Technology Solutions, Software Development, Web Technologies, Data Management, and IT Consulting**. The organization focuses on delivering innovative and reliable solutions to clients while maintaining high standards of quality and professionalism. It also actively supports students by providing training and internship opportunities.

3. Internship Overview

The internship was designed specifically for **B.Tech students** to enhance their technical knowledge and industry readiness. During the internship period, students were introduced to basic and advanced concepts of software development and IT services. The training included orientation sessions, hands-on practice, and guided project work under the supervision of experienced mentors.

The Department of Computer Science and Engineering organized a 45-day internship program for final-year students in collaboration with Anvistar ITS Pvt. Ltd., Pune, starting from June 27, 2025. The program included hands-on training in web development, Java, and Python, along with live project work. All participating students successfully completed their internship, and the project evaluation was conducted yesterday.

Mr. Amit Khojare, Director of Anvistar ITS Pvt. Ltd., visited the college for the evaluation. He interacted with the students and guided them on various career opportunities in the IT sector, strategies to crack technical interviews, and important do's and don'ts for campus placements. Following this interaction, a project presentation session was held, during which Mr. Khojare personally evaluated all the internship projects.

The one-day internship evaluation program concluded with the signing of an MOU with Anvistar ITS Pvt. Ltd. Pune.

4. Work and Learning Experience

During the internship, students gained exposure to:

- Fundamentals of software development lifecycle
- Web development concepts such as HTML, CSS, JavaScript, and basic backend technologies
- Introduction to databases and data handling
- Understanding of real-time project workflows
- Team collaboration and professional communication

Activity under MoU

The mentors provided continuous guidance, conducted regular reviews, and helped students improve problem-solving skills. The practical tasks and mini-projects helped in strengthening conceptual understanding and technical confidence.

5. Skills Gained

Through this internship, students developed:

- Technical skills related to IT and software development
- Analytical and logical thinking
- Time management and discipline
- Teamwork and professional behavior
- Basic understanding of industry standards and work ethics

6. Conclusion

The internship at **Anvistar ITS Pvt. Ltd., Pune** was a valuable learning experience. It successfully bridged the gap between academic learning and industry requirements. The exposure to real-time projects and professional guidance helped in enhancing both technical and personal skills. This internship proved to be an important step toward career development and future professional growth.
