Subject: Power System Stability and Control

Teacher: Dr. Uttam S Satpute

Unit 5 : Optimal Operation of power system		
1	Performance curves	https://youtu.be/8tGEyVQ56hQ
2	Economical load dispatch without considering transmission loss	https://youtu.be/RL39OcKTW_Q
3	Numerical	https://youtu.be/gfbRGUunsaY
4	Economical load dispatch with transmission loss	https://youtu.be/7rSITPp2e5c
5	Unit commitment and constraints	https://youtu.be/LqubykBgFws

Unit 6 : Power System Security		
1	State of operation of power system	https://youtu.be/Y-unl0B5tOc
2	Power system security analysis	https://youtu.be/XOa6AltIKqo
3	Sensitivity factors	https://youtu.be/O2sD7WPqK2g

Unit 2 : Power System stability		
1	Numerical of power system stability	https://youtu.be/aFMCKmZgPNE
